Our Story

2015

Entered the Chinese market as a K-Beauty distribution partner, supporting K-Beauty brands' local expansion. Captured early demand for K-Beauty in China, establishing a solid foundation for global growth.

2019

Acquired Beauty of Joseon, pivoting from distribution to a brand-driven business. The brand quickly gained traction in North America, becoming the cornerstone of our global strategy.

2022

Beauty of Joseon ranked No. 1 in the sunscreen category on Amazon, emerging as a flagship K-Beauty brand worldwide. This milestone set the stage for portfolio expansion and a stronger global presence.

2024

Acquired TIRTIR and SKIN1004, building a multi-brand portfolio of market-proven brands. Combined each brand's strengths to maximize synergies and accelerate global market reach.

2025

Acquired SEORIN Company(Round Lab) and SKINFOOD, further solidifying our position in the beauty market. Expanded into global retail channels including Sephora and Ulta Beauty. TIRTIR and SKIN1004 continued strong international momentum, fueling scale-driven growth.

2026

Following the acquisition of Hansung USA, launched Goodai Global USA, securing direct logistics infrastructure and a robust retail network in North America. Renamed the Japanese subsidiary as Goodai Global Japan, driving the transformation into a multi-brand distribution platform. Also introduced ESEVE, an inner beauty brand, expanding the portfolio beyond beauty into wellness. With distribution hubs now bridging North America and Asia and a diversified brand portfolio, Goodai Global is rapidly expanding its influence in the global beauty market.

An Inner Beauty Routine Brand for a Lighter Days

eseve creates inner beauty routines that blend naturally into everyday life, with equal attention to ingredients, taste, and the drinking experience. The name draws on the French word *sève*, the sap that carries a plant's vitality. In the same way, a healthy flow within our own bodies can bring lighter days and a better everyday — and eseve proposes inner beauty routines designed for everyday consistency. Its signature Airy Face Drink is a lemon sparkling beverage with enzymatically modified hesperidin — light and delicious, unlike the herbal teas and concentrates that have long been at the center of the market.

eseve will continue to propose new routines, expanding the ways people experience inner beauty.
